## President's Column

Mark Taylor

OK, when does Indian Summer start?  
Or, who wants to go flying in 49° rain??

Might be a good use of all those 72 MHz transmitters and receivers lying around in the junk box of your shop!

This month's meeting will be at the field. Stay tuned for weather updates.

After that, 2nd Tuesday of every month at the 3M gym, courtesy of Craig. I think he was CEO there for a decade or so until they canned him for stock prices getting too high.

Meetings at the gym are a lot of fun, even for those of us not terribly fond of the little buzzers. Bring something small and agile and keep your finger-cerebellar reflexes alive for the long dark Arctic winter

Meanwhile, please send me pictures of the winter projects you're starting so we can show them in the newsletter

I was just over at Ray Peterson's to admire his nearly finished Top Flite giant P-47 and offer him unsolicited (but FREE!) advice. Spektrum, DLE-60, Robart's, pretty says it all. Rattlecan Krylon finish looks really smooth.

Once more, when does Indian summer start? See the Page 3.  
And good luck!
